International Conference

TERRITORIAL INTELLIGENCE – TERRITORIAL INFORMATION, INDICATORS AND TOOLS

Pécs, May 29 – 31 2008

Call for papers

Dear Colleagues,

We send you the call for paper of the International Conference “*Territorial Intelligence – Territorial information, indicators and tools*” that is organized by the “TIK”, in collaboration with the caENTI – Coordination Action of the European Network of Territorial Intelligence.

This international conference and the caENTI WP4 and WP6i meeting will successively take place in Pécs. The International Conference which is open to all people who are interested will take place from 29th to 30th of May 2008.

The International Conference “*Territorial Intelligence – Territorial information, indicators and tools*” will allow making a productive confrontation of caENTI members and other experts who deal with different disciplinary prospects of the following themes:

1. Territorial information and territorial competitiveness
2. Territorial development and tools
3. New territorial approaches and methods in the sustainable development and new processes in regional development
4. The fundamental methods and research design in territorial information analysis

We will send the provisional program soon.

The people who are interested the presenting and contribution (of ten-minute duration) they are invited to send to sum-up in English in format Word (*.doc) to the address fcsilla@gamma.ttk.pte.hu before April, the 20th 2008.

The summaries (of 500 word-length as a maximum) will receive an expertise and the ones that will be accepted by the people who are in charge for the meetings will be published in the Conference Acts.

We hope to receive you as a participant of our International Conference.

Kind regards

Pécs, January, the 15th 2008.

Csilla Filó
Zoltán Wilhelm
Péter Ács
